- In the second year of the project all EAPN Networks are involved.

<http://emin-eu.net>

The European Minimum Income Network (EMIN) is a two-year project (2013-2014) funded by the European Commission, aiming at building consensus to take the necessary steps towards the progressive realisation of adequate and accessible minimum income schemes in EU Member States, in line with the European Commission's Active Inclusion Recommendation of 2008, the Europe 2020 strategy and in the context of the European Platform against Poverty and Social Exclusion.

## The Importance of Minimum Income Schemes in the Fight against poverty and social exclusion

In a context when there is tendency to tighten eligibility for Minimum Income Schemes in many Member States, the Minimum Income Network is an important step to maintain a focus on the importance of adequate and accessible Minimum Income Schemes. More than ever such Schemes represent a lifeline for people experiencing poverty and social exclusion. Minimum Income support is often the only financial support available for people experiencing hardship, both for people who cannot access paid work and for those who have worked and are at the end of their coverage period for unemployment benefits. Access to adequate Minimum Income Schemes provides an important basis for participating in the life of the community, reconnecting with the world of work and to living a life in dignity. Moreover, it makes a significant contribution to an inclusive recovery from the crisis, by supporting people to support the economy and to re-launch purchasing power and local demand.

### income schemes

The European Minimum Income Network will:

- ⇒ **Analyse current trends and obstacles** and propose improvements regarding coverage, adequacy and (non) take-up of Minimum Income Schemes, through the reports of National Minimum Income Networks enriched by two thematic approaches related to adequacy of old age Minimum Income Schemes and coverage and (non) take-up by homeless people.
- ⇒ **Present and exchange on 'good' and 'unsatisfactory' practices** and promote learning and transfer of knowledge.
- ⇒ **Raise awareness** on the EU current frameworks, including the 1992 Council Recommendation and the 2008 Active Inclusion Recommendation.
- ⇒ **Build consensus** on the necessary steps towards the progressive realisation of adequate and accessible Minimum Income Schemes in Member States as well as Norway, Iceland, Serbia and FYROM and support the implementation of these steps.
- ⇒ **Contribute to the identification of common EU level definitions and criteria for adequate Minimum Income Schemes**, and the potential for a strengthened EU framework for cooperation in this field.

## Activities planned during the two-year life cycle of the network

- **Establishment and Launch of the European Minimum Income Network:** with the participation of a wide range of diverse stakeholders.
- **Establishment of Five National Minimum Income Networks in Denmark, Ireland, Belgium, Italy and Hungary.**
- Reports on **Analysis of Minimum Income Schemes in the 5 identified Countries:** based on a common framework and drawing on existing research.
- **Thematic work on adequacy of minimum old age income Schemes,** led by AGE Platform in France, Belgium and Poland.
- **Thematic work on take up by vulnerable groups, in particular homeless people,** led by FEANTSA, in Italy, France, Hungary, Romania, Ireland, United Kingdom, Finland and Poland.
- **Two Peer Review sessions,** aimed at exchanging findings and identifying key learning points gathered in the reports in the 5 countries identified.
- **European level Conference (Year 1)** to analyse and disseminate the key learning points from the work in the five countries and the two thematic approaches.
- Reports on **Analysis of Minimum Income Schemes in the remaining 26 countries:** based on the experience of developing these reports in the 5 identified countries.
- Support for implementation of **steps towards the Progressive realisation of adequate Minimum Income Schemes in the 5 identified countries.**
- **Thirty-one national level Conferences** to help build consensus towards adequate and accessible Minimum Income Schemes in each of these countries.
- **European level Conference (Year 2)** to present suggestions for enhancing EU level coordination in the field of Minimum Income Schemes, including the proposal for common EU level definition and criteria for adequate Minimum Income Schemes.
